## **DETAILED ACTION**

### ***Inventorship***

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

### ***Allowable Subject Matter***

2. Claims 1-13 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art considered does not disclose nor fairly suggests, a method for reducing pulse sequence duration and/or reducing peripheral nerve stimulation in Magnetic Resonance Imaging, that establishes a slew rate in light of a weighting factor and a field of view for gradient axes as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
